U. S. F. P. Fund Office, Calcutta, the 27th June 1919.

Statement of the affairs of the Bank of Bengal for the week ending 8th July 1879.

So far as appears from a search made at the office of the Registrar of Assurances at Calcutta, there are no encumbrances affecting the above premises except two subsisting mortgages in respect of the premises, No. 149-A, Muktarum Babu's Street, one dated 6th day of

August 1916 to secure repayment of Rs. 20,000 with interest thereon at the rate of Rs. 7½ per cent. per annum with quarterly rents, but in case of regular payment of interest the same will be charged at the rate of Rs. 6½ per cent. per annum, and the other dated 28th day of August 1918 to secure repayment of Rs. 6,000 with interest thereon at the rate of 8 per cent. per annum with quarterly rents subject to the two attachments. On evidence it appears that the judgment-debtor Nirmal Chandra Dutt has paid interest on the mortgage for Rs. 20,000 in favour of Mr. K. S. Banerjee up to the 5th day of January 1919.

The sum for the recovery of which the sale has been ordered is Rs. 30,127-8 with interest thereon at the rate of 6 per cent. per annum from 30th day of August 1916 until realization, and the costs.

The conditions of sale may be seen at the office of the Sheriff of Calcutta on the ground-floor of the court-house on any day before the sale and will be produced at the sale.

THE Corporation of Calcutta are prepared, with the sanction of the Local Government and Government of India given under section 128 of Act IV (B.C.) of 1914 [The Calcutta Municipal (Loans) Act, 1914], to open Debenture Loans for Rs. 2,62,000 and Rs. 7,33,500, on the security of the rates, taxes and dues imposed and levied under the Calcutta Municipal Act, 1899.

(2) The debentures for the loan of Rs. 2,62,000 will have a currency of 17 years, commencing from 1st July 1919. The debentures of the loan of Rs. 7,33,500 will have a currency of 17 years, commencing from 1st January 1920. The rate of interest will be 5½ per cent. per annum for each loan, payable half-yearly on the 1st of January and the 1st of July.

(3) The debentures will be in the form prescribed by the Corporation with the sanction of the Local Government, under section 131 of Act IV of 1914.

(4) Debentures will be issued only for multiples of Rs. 100.

(5) Separate tenders for the whole or any part of the above two loans will be received by the Secretary to the Corporation, up to 12 noon (local time) on Saturday, the 13th September 1919.

(6) Each tender must be made out in the form relating to the particular loan annexed to this notification and enclosed in a sealed cover addressed to the Secretary to the Corporation, and superscribed—"Tender for Municipal Loans of 1919-20."

(7) Each tender must be accompanied by an earnest deposit in Government Promissory Notes, War Bonds, Calcutta Municipal or Port Trust Debentures, Currency Notes or Cheques, for not less than 3 per cent. of the amount tendered.

(8). (a) When a tender in respect of the loan of Rs. 2,62,000 is accepted, the earnest deposit in currency notes or cheques will be held as a payment in part of the amount tendered, and the tenderer will receive interest at 5½ per cent. per annum on the face value of debentures covered thereby from the date of acceptance of the tender up to the 31st December 1919, provided that the balance is paid up on the 22nd September 1919, as prescribed in paragraph 11 below; but no debenture will issue for the amount of the earnest deposit so long as the entire amount of the tender is not paid. The tenderer will similarly receive interest on the amount of balance paid on the 22nd September, from that date up to the 31st December 1919, and interest on the debentures will run from the 1st January 1920.

(b) When a tender in respect of the loan of Rs. 7,33,500 is accepted, the earnest deposit, when made in currency notes or cheques, will be held as a payment in part of the amount tendered, and will bear interest at the rate of 5½ per cent. per annum from the date of acceptance of the tender, provided that the balance is paid up on the 22nd September 1919, as prescribed in paragraph 11 below; but no debenture will issue for the amount of the earnest deposit so long as the entire amount of the tender is not paid.

(9) The earnest deposits on tenders which may not be accepted will be returned on application, and no interest will be payable on such deposits. If an allotment after being made is not taken up, or the full amount allotted is not paid as hereinafter prescribed, the earnest deposit shall be forfeited.

(10) The rate at which a tender is made must be specified in rupees, or rupees and annas; but not in any fraction of an anna. If a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out, and the tender treated as if the rate did not contain such fraction of an anna. A tender in which the rate is not specified in rupees, or rupees and annas, will be rejected as null and void.

(11) The whole amount of each allotment, less the amount of earnest deposits in currency notes or cheques, will be payable in the Bank of Bengal on the 22nd September 1919, and will bear interest from that date.

(12) Tenders will be opened by the Finance Special Committee of the Corporation at 12 noon on Saturday, the 13th September 1919, at the Municipal Office.

(III) An extra high pressure alternating current three-phase supply at a pressure not exceeding 20,000 volts between phases and at a frequency of 50 complete periods per second, the neutral point of the transformers being, with the approval of Government and the concurrence of the Telegraph Authority, connected to earth.

(IV) Extra high pressure alternating current three phase aerial transmission lines at a pressure not exceeding 60,000 volts between phases and at a frequency of 50 complete periods per second for connecting the generating station with the several Receiving Stations to be situated within the same area, the neutral of the generators and/or transformers being, with the approval of Government and the concurrence of the Telegraph Authority, connected to earth.

Provided always that it shall be lawful for Government from time to time to authorise other systems to be adopted for the purposes of this license.

The mains and distributing mains and service lines within the area of supply shall either be underground or aerial lines, provided always that nothing in this license shall be deemed to empower the licensee to place aerial lines including the aerial lines mentioned in sub-clause (IV) of this clause] along or across any street unless and until Government, after consulting the local authority, has communicated to the licensee a general approval in writing of the position and methods of construction of such lines.

8. **Power to break up Private Streets, Railways and Tramways.**—In pursuance of the provisions of section 12, sub-section (1) of the Act the licensee are hereby specially for the purpose of this license authorised to break up streets within the area of supply not repairable by Government or by a local authority, and also such parts of railways and tramways within the area of supply as are used as level crossings, or as run along highways (on the level).

9. **Maximum Charges.**—The prices to be charged by the licensee for energy supplied by them to any consumer shall not exceed the following or, in the case of a method of charge approved by Government in accordance with clause X of the Schedule to the Act, such maximum as the Government shall fix on approving the method. Nevertheless the licensee may (subject to the provisions of section 23 of the Act) enter into special contracts for the supply of energy.

For the purposes of this clause the expression unit shall mean the energy contained in a current of 1,000 amperes flowing under an electro-motive force of one volt during the hour.

#### Section 1.

For Lighting and Power purposes :—

At the rate of 2 annas per unit.

#### Section 2.

When the licensee charge any consumer by the electrical quantity contained to the supply given to him they shall be entitled to charge him according to the rate set forth above, the amount of energy supplied to him being taken to be the product of that electrical quantity and the declared pressure at the consumers' terminals, that is to say, such a constant pressure at the terminals as may be declared by the licensee under the regulations of the Local Government or of the Governor-General in Council.

#### Section 3.

Special "Flat Rate" contracts for supply of energy for power purposes may be entered into with mining companies requiring not less than 800,000 units per quarter a year, or with other consumers capable of being supplied under clause 6, sub-section (1), requiring not less than the same amount and having equally favourable conditions as to load factor, at a rate not exceeding 1·5 annas per unit; provided that in regard to supply to other licensees in bulk under clause 6, sub-section (1), (a), the licensee may, in contracts of the nature referred to in this section, charge a different rate for energy supplied for purposes of re-sale, so that such does not exceed the maximum charge above stated.

There shall be no obligation upon the licensee to enter into contracts of the nature referred to in this section for any period less than five years.

10. **Purchase of Undertaking.**—(1) The option of purchasing the undertaking accorded to Government by section 7 of the Act shall be exercisable at the end of the period of 42 years computed from the commencement of this license, and at the end of every subsequent period of 10 years during the subsistence of this license. The percentage of the value to be determined in accordance with and for the purpose of section 7 (1) of the Act of the lands, buildings, works, materials and plant of the licensee to be added under the second proviso of that sub-section to such value on account of compulsory purchase shall be 20 per cent.

(2) In accordance with section 9, sub-section (2), clause D (ii) of the Act it is hereby declared that the generating station to be used in connection with the undertaking shall form part of the undertaking for the purpose of purchase under section 5 or 7.

11. **Transfer.**—At any time after the commencement of this license the licensee may transfer the whole of their undertaking in respect of which this license is granted (including all lands, buildings, works, materials and plant of the licensee) to a Company to be formed and registered in Bengal in accordance with the law in force in British India or in England under the English Companies Act, having authority to take over the said undertaking and to exercise the powers and perform the obligations given to or imposed upon the licensee under this license and the Act and Rules made under the Act, and on such transfer the rights, powers and authorities, obligations and liabilities of the licensee shall be transferred to and shall be exercised by and shall attach to such Company to be formed as aforesaid.

12. The provisions contained in clauses 8, 9, 10 and 13 of the Schedule to the Act shall not be deemed to be incorporated in and form part of this license, and the other provisions of the Schedule shall only be deemed to be incorporated in this license so far as they are not inconsistent with its terms.

**PUBLIC WORKS DEPARTMENT, BENGAL.**

**DISTRICT ROAD FUND.**

*Notification dated 25th September 1919.*—The subjoined abstract of the annual report and accounts of the district road committee of the Darjeeling district for the year 1918-19, together with the remarks of the Commissioner of the Rajshahi Division thereon, is published for general information.

C. P. WALSH.

*Secy. to the Govt. of Bengal.*

*Extract from letter No. 382P.W., dated the 18th July 1919, from J. T. RANKIN, Esq., I.C.S., Officiating Commissioner of the Rajshahi Division, to the Secretary to the Government of Bengal, Public Works Department.*

2. The chief feature of the year's working is that a District Engineer and two road sarkars were appointed, though in the latter part of the year.

3. During the year under report the receipts rose by Rs. 4,022. The expenditure also increased from Rs. 52,865 to Rs. 58,363. The committee's resources were not, however, fully utilised and consequently the closing balance in 1917-18, which was as high as Rs. 81,698, has been further increased to Rs. 1,00,865 during the year under report. It is hoped that during 1919-20 there will be a great reduction in the closing balance. The committee expended a sum of Rs. 7,311 in repayment of loans from Government, viz., Rs. 6,689 principal, and Rs. 622 interest. The expenditure on civil works increased by about Rs. 5,664, the increase being largely shared by original works and establishment and contingencies. With the appointment of a full subordinate engineering staff, it is expected that substantial improvement in communication will be made.

4. The contribution received from Government during 1918-19 was less than that of 1917-18 (Rs. 7,538 against Rs. 9,665), but the contribution from the Darjeeling Improvement fund rose from Rs. 7,194 to Rs. 8,830. This increase is due to the increased expenditure incurred by the appointment of a District Engineer and his peon, etc., at the joint expense of the Road and Darjeeling Improvement funds.

6. The number of meetings held by the District Road Committee, Kurseong branch committee and Terai branch committee was 8, 4 and 7 against 7, 4 and 8.

7. The work of the district committee and that of branch committees were performed satisfactorily.

*Abstract of the Report by the Chairman, District Road Committee of Darjeeling, on the operations of the District Road Fund of the district for the year 1918-19.*

[Vide letter No. 92R.F., dated the 30th June 1919, from J. A. L. Swan, Esq., Chairman of the District Road Committee, Darjeeling, to the Commissioner of the Rajshahi Division.]

**1. Working of the Committee.—**

(a) **District Road Committee.**—There were 18 members of the committee—6 official and 12 non-official. Eight meetings were held during the year. The average attendance was 9.37 or 52.8 per cent. at a meeting.

(b) **Kurseong Branch Road Committee.**—The total number of members of this branch committee was 9—3 official and 6 non-official. Four meetings were held during the year. The average attendance was 3.75 or 41.66 per cent. at a meeting.

(c) **Terai Branch Committee.**—There were 15 members of this branch committee—2 official and 13 non-official. Seven meetings were held during the year. The average attendance was 6.14 or 40.95 per cent. at a meeting.

2. The year opened with a cash balance of Rs. 73,574-5-3 and an outstanding advance of Rs. 8,123-11-3, making a total of Rs. 81,698-0-6. This amount together with receipts of Rs. 77,529-15-7 or a total amount of Rs. 1,59,228-0-1 was available for expenditure during the year. The actual expenditure during the year was Rs. 58,363-6-1 excluding the unadjusted advance of Rs. 6,677-10-9. The actual cash balance on the 31st March 1919 was Rs. 94,186-15-3. The closing balance of Rs. 1,00,864-10 including the unadjusted advance of Rs. 6,677-10-9 exceeds one quarter's kist of the annual receipts. Portion of this unadjusted sum was expended, but no accounts having been received within the year it could not be adjusted. The closing balance is, however, expected to be reduced to its normal proportion on the appointment of the proposed District Engineer's staff.

### Receipts.

3. **Provincial Rates.**—The road cess was levied by the committee at the maximum rate of six pies in the rupee. Rupees 61,051-15-8 was collected under the head "Cess on lands" during the year against Rs. 56,624-8 in the previous year. The increase is due to the revaluation.

4. **Miscellaneous.**—A sum of Rs. 59-12-6 was credited under this head on account of sale proceeds of certain old materials of bridges and fees and fines due to revaluation works.

### 5. Contribution.

(a) **Grant of Government.**—A sum of Rs. 7,537-11-10 was received from Government including Rs. 6,718 on account of augmentation of resources of the committee, against Rs. 9,664-14-11 of the preceding year. The decrease is mainly due to the less amount being credited on account of 14 per cent. collection from Government estates for the quarter ending in March 1918.

(b) **Contribution from Darjeeling Improvement Fund.**—A contribution of Rs. 8,830-7-7 was received under this head towards communications and its share, as usual, of the cost of the joint cess and tanzi establishment and for Darjeeling Improvement Fund works against Rs. 7,194-2-9 in the previous year. The increase is due to the increased expenditure incurred for the appointment of a District Engineer and his peons, etc., at the joint expenses of the Road and Darjeeling Improvement funds.

(c) **Contribution from private bodies and other sources.**—A sum of Rs. 50 was received from the Darjeeling municipality during the year on account of collection of location rent.

### Expenditure.

#### COMMUNICATION.

4. As the whole contract will not be given to one party, tenders should be submitted for parts of the contract either with or without a tender for the whole area.

5. The rates tendered must include the cost of carriage of the spirit from the distillery to the warehouse and must specify the price per London-proof gallon at which the tenderer is prepared to sell the spirit to licensed vendors at any of the warehouses enumerated in the schedule and at any additional warehouse or warehouses that may be opened. Spirit will be issued at prescribed strengths only and the price to be realized from the licensed vendors will be proportionate, according to strength, to the price specified in the contract. The price is at first credited into the Government treasury and is paid to the contractors after the close of each month. Under special orders the payment of price may be withheld for any reason.

6. Spirit intended for warehouses must be conveyed in sound watertight and approved vessels, and the contractors will be bound to pay duty on any deficiency in excess of the allowable limit, in accordance with the rules for the time being in force in the Province from which the spirit is conveyed to the warehouses.

7. The contractor will be required to purchase from the existing contractors at the current cost price for the warehouse in which such spirit is stored the spirit in stock at the warehouses, but he shall not be bound to take over a quantity in excess of the probable requirements for fourteen days. The contractor must deposit not later than 21st March 1921 in each warehouse stock of spirit from his own distillery, equivalent to the probable requirements for one month.

8. The spirit must have been made in the contractor's own distillery in India.

9. In the case of the distillery not being situated in Bengal, the Commissioner of Excise will require satisfactory evidence that the plant is adequate to meet the total demands made upon the distillery, and he may require the contractor to instal additional stills and other accessories.

10. In case the Government premises at Russa in Tollygunge near Calcutta are used for the manufacture of spirit for wholesale supply, any additions to the existing buildings must be made at the expense of the contractor and he must maintain these and the existing buildings in repair. A fee of half an anna per proof gallon will be charged for the buildings and land.

11. The spirit intended for contract supply must be distilled at such strength as may be prescribed by the Excise Commissioner.

12. The contractor will be bound to provide all plant, viz., vats, pumps, pipes, etc., required for the storing, reducing and issue of liquor or, if there be any such plant belonging to the present contractor in the warehouses he will be required to purchase such plant which is in use and in serviceable condition at a valuation made, if necessary, in accordance with paragraph 20. All new plant proposed for erection must be approved by the Commissioner of Excise.

13. Water for reduction purposes is available at or near each warehouse, but the cost of conveying water, and of filtration, etc., must be borne by the contractor.

14. The contractor shall be bound to maintain at each warehouse such minimum daily stocks as may from time to time be fixed by the Commissioner of Excise.

15. The contractor must keep an agent at each warehouse and shall be responsible for reducing spirit to issue strengths and for all wastages and shrinkages.

16. Government shall not be held responsible for the destruction, loss or damage by fire, theft or any other cause whatsoever occurring to any spirit in the warehouse or in gauging, weighing or proof.

17. In case the contract be not renewed at its expiry the contractor will be bound to allow Government the right of pre-emption of the vats, pumps, pipes, etc., at a valuation made by two valuers according to paragraph 20 and in the case of the distillery being situated in this province this clause will apply to the distillery buildings and plant.

18. Form of grant and licence may be obtained from the Commissioner of Excise on application. The contractor will be bound by all the conditions entered therein and by the provisions of the Excise Act in force within the Presidency and by the rules and instructions of Government or the Commissioner of Excise issued under such Act.

19. For the observance of the conditions of the contract, the contractor must execute a deed, hypothecating to Government his vats, pumps, pipes and apparatus, together with the stock of liquor in the warehouses and deposit, at the time of signing the contract, Government Promissory Notes of such value as the Commissioner of Excise may direct.

20. Any valuations required will be made by two valuers—one to be selected by the Commissioner of Excise and the other by the existing contractors. In the event of differences in the valuations, the matter will be referred to Government, whose decision will be final.

21. The Commissioner of Excise is not bound to accept the lowest or any tender. Power is reserved to reject any of those received without reasons being assigned.

22. Tenders, enclosed in sealed covers and marked "Bengal Spirit Contracts," will be received up to the 28th February 1920, by the Commissioner of Excise, Calcutta, to whom application in writing only may be made for further particulars.

The entire property is believed to be very rich in the minerals. Out of the total area of 1,100 square miles about one-third of the whole area is at present covered by certain mining leases and prospecting licenses granted in respect of gold, copper, iron ore, phosphate of lime, wolfram, white ochre, kaolin, etc. These leases and licenses at present yield a gross annual income of about Rs. 32,000 subject to certain royalties payable to the Dalbhum Encumbered Estate under the said patta and indenture. Owing to the war it has not been possible to have the remainder of the estate properly surveyed by experts and it is expected that in the near future the present income will be considerably enhanced.

A preferential right to purchase the said property was claimed by Mr. V. G. Pigott, but it has been held by the said High Court as declared in the said order of 8th of December 1919 that this preferential right claimed by the said Mr. Pigott no longer exists. The said property will be sold to the highest bidder subject to all existing mining leases and prospecting licenses granted by the said receiver, but free from all other encumbrances and attachment whatsoever including the said claim of Mr. Pigott.

Full particulars of the said property and the leases and licenses granted in respect thereof can be obtained from the office of the said Receiver.

That abstract of title and conditions of sale may be seen at the office of Messrs. Orr, Dignam & Co., 32, Dalhousie Square, or at the office of the undersigned.

N. B.—The Commissioner of Excise reserves the right to establish new warehouses at such other places within the contract area as he may deem suitable or to close existing warehouses.

3. Where both mahua and molasses are mentioned in the schedule the spirit may be made from either material or from a mixture of the two in any proportions.

4. As the whole contract will not be given to one party, tenders should be submitted for parts of the contract either with or without a tender for the whole area.

5. The rates tendered must include the cost of carriage of the spirit from the distillery to the warehouses and must specify the price per London-proof gallon at which the tenderer is prepared to sell the spirit to licensed vendors at any of the warehouses enumerated in the schedule and at any additional warehouse or warehouses that may be opened. Spirit will be issued at prescribed strength only and the price to be realised from the licensed vendors will be proportionate, according to strength, to the price specified in the contract. The price is at first credited into the Government treasuries and is paid to the contractors after the close of each month. Under special orders the payment of price may be withheld for any reason.

6. Spirit intended for warehouses must be conveyed in sound watertight and approved vessels, and the contractors will be bound to pay duty on any deficiency in excess of the allowable limit, in accordance with the rules for the time being in force in the Province from which the spirit is conveyed to the warehouses.

7. The contractor will be required to purchase from the existing contractors at the current cost price for the warehouse in which such spirit is stored the spirit in stock at the warehouses, but he shall not be bound to take over a quantity in excess of the probable requirements for fourteen days. The contractor must deposit not later than 21st March 1921 in each warehouse stock of spirit from his own distillery, equivalent to the probable requirements for one month.

8. The spirit must have been made in the contractor's own distillery in India.

9. In the case of the distillery not being situated in Bengal, the Commissioner of Excise will require satisfactory evidence that the plant is adequate to meet the total demands made upon the distillery, and he may require the contractor to instal additional stills and other accessories.

10. In case the Government premises at Russa in Tollygunge near Calcutta are used for the manufacture of spirit for wholesale supply, any additions to the existing buildings must be made at the expense of the contractor and he must maintain these and the existing buildings in repair. A fee of half an anna per proof gallon will be charged for the buildings and land.

11. The spirit intended for contract supply must be distilled at such strength as may be prescribed by the Excise Commissioner.

12. The contractor will be bound to provide all plant, viz., vats, pumps, pipes, etc., required for the storing, reducing and issue of liquor or, if there be any such plant belonging to the present contractor in the warehouse he will be required to purchase such plant which is in use and in serviceable condition at a valuation made, if necessary, in accordance with paragraph 20. All new plant proposed for erection must be approved by the Commissioner of Excise.

13. Water for reduction purposes is available at or near each warehouse, but the cost of conveying water, and of filtration, etc., must be borne by the contractor.

14. The contractor shall be bound to maintain at each warehouse such minimum daily stocks as may from time to time be fixed by the Commissioner of Excise.

15. The contractor must keep an agent at each warehouse and shall be responsible for reducing spirit to issue strengths and for all wastages and shrinkages.

16. Government shall not be held responsible for the destruction, loss or damage by fire, theft or any other cause whatsoever occurring to any spirit in the warehouse or in gauging, weighment or proof.

17. In case the contract be not renewed at its expiry the contractor will be bound to allow Government the right of pre-emption of the vats, pumps, pipes, etc., at a valuation made by two valuers according to paragraph 20 and in the case of the distillery being situated in this province this clause will apply to the distillery buildings and plant.

18. Form of grant and licence may be obtained from the Commissioner of Excise on application. The contractor will be bound by all the conditions entered therein and by the provisions of the Excise Act in force within the Presidency and by the rules and instructions of Government or the Commissioner of Excise issued under such Act.

19. For the observance of the conditions of the contract, the contractor must execute a deed, hypothecating to Government his vats, pumps, pipes and apparatus, together with the stock of liquor in the warehouses and deposit, at the time of signing the contract, Government Promissory Notes of such value as the Commissioner of Excise may direct.

20. Any valuations required will be made by two valuers—one to be selected by the Commissioner of Excise and the other by the existing contractors. In the event of differences in the valuations, the matter will be referred to Government, whose decision will be final.

21. The Commissioner of Excise is not bound to accept the lowest or any tender. Power is reserved to reject any of those received without reasons being assigned.

22. Tenders, enclosed in sealed covers and marked "Bengal Spirit Contracts," will be received up to the 28th February 1920, by the Commissioner of Excise, Calcutta, to whom application in writing only may be made for further particulars.
